AV Communication Review Index

Volume 24, 1976

A

Aaron, Shirley, Personalizing instruction for the middle school learner: the instructional role of the school media specialist, *research abstract,* 3 350

Academic and entrepreneurial research, Ilene N. Bernstein *and* Howard E. Freeman. *Book reviewed by* Warren F. Seibert, 1 91-93

Acquisition of a concept: effects of mode of instruction and length of exposure to biology examples, *article,* John J. Koran, Jr., Mary Lou Koran, *and* Patricia Freeman, 4 357-366

The acquisition of nonverbal behaviors by preservice science teachers and their application during student teaching, Anne Dawley Raymond, *research abstract,* 1 112

Algorithmization in learning and instruction, L. N. Landa. *Book reviewed by* Susan M. Markle, 3 329-333

Analytical models in education planning and administration, Hector Correa, *ed. Book reviewed by* W. Patrick Leonard, 4 452-454

And Furthermore, 1 102; 3 347

Aptitudes and instructional methods, Lee J. Cronbach *and* Richard E. Snow. *Book reviewed by* Richard E. Clark, 4 437-444

Associative Meaning

Article: The structure of multiple free association to words, black-and-white pictures, and color pictures, 3 273-293

Attitudes

Articles: Channel variations and effects on attitudes toward physically disabled individuals, 2 135-144; The impact of alternative media channels: recall and involvement with messages, 3 263-272; The importance of perceived task and type of presentation in student response to instructional television, 4 391-402

Research abstracts: "British children and televised violence," 1 109; The effect of simulation gaming in the social studies upon student racial attitudes, 1 107-108; The effects of videorecording experience upon the communication behavior skill of empathy and dogmatism in sophomore community college nursing students, 1 111; The efficacy of an anticipation game in increasing teachers' understandings of educable mentally retarded children, 3 349; Simulation game effects on attitudes regarding racism and sexism, 1 108-109; A study of college administrator attitude development through a simulation game, 1 107; Student achievement: diagnostic and prescriptive reading instruction, summer, 1974. Technical report no. 8, 3 349; To see ourselves as others see us: television and its portrayal of the female, 1 110

Aural presentation

Articles: Channel variations and effects on attitudes toward physically disabled individuals, 2 135-144; The impact of alternative media channels: recall and involvement with messages, 3 263-272; The importance of perceived task and type of presentation in student response to instructional television, 4 391-402; Pictures, repetition, and young children's oral prose learning, 4 367-380

Austin, Carol A., *book reviewer,* 1 94-96

Automated instruction of Flanders interaction analysis, Kathleen M. Swigger, *research abstract,* 3 352

AV autotutorial instruction: a review of evaluative research, *article,* Kathleen M. Fisher *and* Brian MacWhinney, 3 229-261

B

Barnouw, Erik, Tube of plenty. *Book reviewed by* Frank W. Norwood, 3 337-340

Baum, Richard Bruce, The efficacy of an anticipation game in increasing teachers' understandings of educable mentally retarded children, *research abstract,* 3 349

A behavioral perspective on media selection, *article,* George Gropper, 2 157-186

Bender, Bruce G. *See* Levin, Joel R.

Bernard, Michael E., Task analysis in instructional program development. Theoretical paper no. 52, *research abstract,* 3 351-352

Bernstein, Ilene N. *and* **Howard E. Freeman,** Academic and entrepreneurial research. *Book reviewed by* Warren F. Seibert, 1 91-93

Booher, Harold R., Relative comprehensibility of pictorial information and printed words in proceduralized instructions, *research abstract,* 2 216

Books reviewed

Academic and entrepreneurial research, 1 91-93

Algorithmization in learning and instruction, 3 329-333

Analytical models in education planning and administration, 4 452-454

Aptitudes and instructional methods, 4 437-444

Communication science and technology, an introduction, 1 94-96

Design and analysis of time-series experiments, 4 449-451

Educational technology in curriculum development, *2* 209-214
The federal role in funding children's television programming, (two volumes), *2* 200-203
Instructional regulation and control: cybernetics, algorithmization, and heuristics in education, *3* 329-333
Mass communication: a sociological perspective (second edition), *2* 204-208
Media personnel in education: a competency approach, *3* 340-346
Modular instruction, *1* 99-101
Preparing instructional objectives (second edition), *1* 96-98
Schoolteacher: a sociological study, *3* 334-337
Teaching and social behavior: toward an organizational theory of instruction, *4* 445-448
Toward faculty renewal, *2* 195-200
Tube of plenty, *3* 337-340

Bramble, William J., and others, Education on the beam: a progress report on the Appalachian education satellite project, *research abstract, 2* 218; Student achievement: diagnostic and prescriptive reading instruction, summer, 1974. Technical report no. 8, *research abstract, 3* 349

"British children and televised violence," Bradley S. Greenberg, *research abstract, 1* 109

Brown, Jeannette A., *and* Marilyn C. Kameen, Changing teacher competence perceptions by focused video-tape feedback, *research abstract, 3* 350-351

Bruce, Elaine, To see ourselves as others see us: television and its portrayal of the female, *research abstract, 1* 110

C

Carrels
Article: Cloistering, social interaction, territoriality in carrel design, *2* 149-156

Changing teacher competence perceptions by focused video-tape feedback, Jeannette A. Brown *and* Marilyn C. Kameen, *research abstract, 3* 350-351

Channel variations and effects on attitudes toward physically disabled individuals, *article,* Joy Donaldson, *2* 135-144

Chapman, Thomas H., Simulation game effects on attitudes regarding racism and sexism, *research abstract, 1* 108-109

Cheyne, William M. *See* Jahoda, Gustav

Children's judgments of intentionality in moral dilemmas: slides with tape-recorded dialog vs. tape-recorded narrative, *article,* Grant Stephenson, Donald Power, John Kelleher, *and* Mary Richardson, *4* 381-390

Chisholm, Margaret E., *and* Donald P. Ely, Media personnel in education: a competency approach. *Book reviewed by* Kenneth H. Silber, *3* 340-346

Clark, Richard E., *book reviewer, 4* 437-444

Cloistering, social interaction, and territoriality in carrel design, *article,* Ronald Spangenberg, *2* 145-156

Cognitive structure
Article: The structure of multiple free association to words, black-and-white pictures, and color pictures, *3* 273-293

Cole, Barry. *See* Mielke, Keith

Collingbourne, Rachel. *See* Jahoda, Gustav

Color
Articles: The effect of IQ level on the instructional effectiveness of black-and-white and color illustrations, *1* 49-62; The structure of multiple free association to words, black-and-white pictures, and color pictures, *3* 273-293

Communication science and technology: an introduction, Patrick R. Penland. *Book reviewed by* W. Patrick Leonard *and* Carol A. Austin, *1* 94-96

Communication skills
Article: The development and evaluation of protocol films of teacher behavior, *1* 21-48
Research abstract: The effects of videorecording experience upon the communication behavior skill of empathy and dogmatism in sophomore community college nursing students, *1* 111

Communication theory
Article: The structure of multiple free association to words, black-and-white pictures, and color pictures, *3* 273-293
Research abstract: Open, Sesame: a key to the meaning of the educational broadcast message, *1* 110

Computer applications in education and training: status and trends, J. D. Fletcher, *research abstract, 2* 217

Computer-assisted instruction
Article: Personality correlates of student-selected individualized instruction, *2* 219
Research abstracts: A study of the effectiveness of computer assisted instruction as compared to traditional instruction when utilized in technical mathematics for college students in business and engineering technology, *2* 221-222; Training mathematics skills with games, *2* 216; Use of an interactive general-purpose computer terminal to simulate training equipment operation, *4* 456; Use of computer-assisted instruction for interpersonal skill training; a pilot study, *1* 111; Individual and small-group learning with computer-assisted instruction, *1* 79-86; Automated instruction of Flanders interaction analysis, *3* 352; Computer applications in education and training: status and trends, *2* 217; Computer-assisted instruction in higher education, *4* 459-461; The effects of a computer-based career counseling program on the vocational maturity of community college students, *4* 456-457; Effects of CAI in a microcounseling model for training facilitative use of verbal communication skills, *4* 457-458; A model for a computer based system for individually diagnosed and prescribed instruction, *4* 459; Modeling the learner in computer-assisted instruction, *4* 458-459

Computer-assisted instruction in higher education, Inja Namkung, *research abstract, 4* 459-460

A computer-based management information system for a humanistic undergraduate elementary teacher education program, Bernice Doerr, *research abstract, 4* 461-462

Computer-managed instruction
Research abstracts: A computer-based management information system for a humanistic undergraduate elementary teacher education program, *4* 461-462; A model for a computer based system for individually diagnosed and prescribed instruction, *4* 459

Correa, Hector, ed., Analytical models in education planning and administration. *Book reviewed by* W. Patrick Leonard, *4* 452-454
Coscarelli, William C. C., The publisher, by Gahil Kibran. Jerusalem: Dead Sea Scrolls Press, 42 B.C. 88 pages, 14 denarii. *In* And Furthermore *1* 102-105
Cronbach, Lee J. *and* **Richard E. Snow,** Aptitudes and instructional methods. *Book reviewed by* Richard E. Clark, *4* 437-444
Cross-cultural studies
Article: Utilization of pictorial information in classroom learning: a cross cultural study *3* 295-315

D

Dalton, Starrett L., *book reviewer, 4* 449-451
Davies, Ivor K., *book reviewer, 2* 209-214
Deregowski, Jan B. *See* Jahoda, Gustav
Design and analysis of time-series experiments, Gene V. Glass, Victor L. Willson, *and* John M. Gottman. *Book reviewed by* Starrett L. Dalton, *4* 449-451
The development and evaluation of a programmed occupational information unit on construction occupations entitled opportunity in construction occupations, Hazel G. Tripp, *research abstract, 2* 222-223
The development and evaluation of protocol films of teacher behavior, *article,* David Gliessman *and* Richard C. Pugh, *1* 21-48
Devine, Howard Francis, The effects of a computer-based career counseling program on the vocational maturity of community college students, *research abstract, 4* 456-457
Diversity
Article: Instructional technology: on diversity in education, *2* 117-134
Doerr, Bernice, A computer-based management information system for a humanistic undergraduate elementary teacher education program, *research abstract, 4* 461-462
Dominick, Joseph R., *book reviewer, 2* 200-203
Donaldson, Joy, Channel variations and effects on attitudes toward physically disabled individuals, *article, 2* 135-144
Dwyer, Francis M., The effect of IQ level on the instructional effectiveness of black-and-white and color illustrations, *article, 1* 49-62

E

Education on the beam: a progress report on the Appalachian education satellite project, William J. Bramble and others, *research abstract, 2* 218
Educational technology
Articles: Instructional technology: on diversity in education, *2* 117-134; The proof and the pudding—a story that could never happen, *2* 187-193
Research abstract: Technology and media for lifelong learning: what can ERIC contribute?, *2* 219
Educational technology in curriculum development, Derek Rowntree. *Book reviewed by* Ivor K. Davies, *2* 209-214
The effects of a computer-based career counseling program on the vocational maturity of community college students, Howard Francis Devine, *research abstract, 4* 456-457
Effects of CAI in a microcounseling model for training facilitative use of verbal communication skills, Raylene Bruce Hamm, *research abstract, 4* 457-458
The effect of IQ level on the instructional effectiveness of black-and-white and color illustrations, *article,* Francis M. Dwyer, *1* 49-62
The effect of simulation gaming in the social studies upon student racial attitudes, Robert Anthony Wieseman, *research abstract, 1* 107-108
The effects of videorecording experience upon the communication behavior skill of empathy and dogmatism in sophomore community college nursing students, Ruby D. Gordon, *research abstract, 1* 111
The efficacy of an anticipation game in increasing teachers' understandings of educable mentally retarded children, Richard Bruce Baum, *research abstract, 3* 349
Ely, Donald P. *See* Chisholm, Margaret E.
Engler, David, Learner verification: a fine-grain analysis of go-go empiricism, *article, 1* 5-20
Evaluation
Articles: The development and evaluation of protocol films of teacher behavior, *1* 21-48; The effect of IQ level on the instructional effectiveness of black-and-white and color illustrations, *1* 49-62; Learner Verification: a fine-grain analysis of go-go empiricism, *1* 5-20; Learner verification and revision: an experimental comparison of two methods, *3* 316-328; The proof and the pudding—a story that could never happen, *2* 187-193
Research abstracts: The development and evaluation of a programmed occupational information unit on construction occupations entitled opportunity in construction occupations, *2* 222-223
An evaluation report of project INTERACT: a teacher inservice training course on career education using two-way TV in Texas to several groups simultaneously, Dorothy A. Fruchter *and* George M. Higginson, *research abstract, 2* 217-218

F

The federal role in funding children's television programming (two volumes), Keith Mielke, Rolland C. Johnson, *and* Barry Cole. *Book reviewed by* Joseph R. Dominick, *2* 200-203
Film
Article: The development and evaluation of protocol films of teacher behavior, *1* 21-48
Fisher, Kathleen M., *and* **Brian MacWhinney,** AV autotutorial instruction: a review of evaluative research, *article, 3* 229-261
Fitzgerald, William F., and others, Personality correlates of student-selected individualized instruction, *research abstract, 2* 219
Fletcher, J. D., Computer applications in education and training: status and trends, *research abstract, 2* 217; Modeling the learner in computer-assisted instruction, *research abstract, 4* 459
Fraley, Lawrence, *and* **Ernest Vargas,** Multivariable implications of an instructional innovation, *article, 4* 403-412
Freeman, Howard E. *See* Bernstein, Ilene N.
Freeman, Patricia. *See* Koran, John J., Jr.
Fruchter, Dorothy A. *and* **George M. Higginson,** An

evaluation report of project INTERACT: a teacher inservice training course on career education using two-way TV in Texas to several groups simultaneously, *research abstract*, *2* 217-218

Functional literacy: a field study of instructor and instructional variables, G. H. Jamieson, *research abstract*, *2* 220

G

Gaff, Jerry G., Toward faculty renewal. *Book reviewed by* Richard A. Stowe, *2* 195-200

Gage, N. L., *ed.*, NIE conference on studies in teaching; panel 8, personnel roles in new instructional systems, *research abstract*, *3* 351

Games (*also see* Simulation)

Research abstracts: The efficacy of an anticipation game in increasing teachers' understandings of educable mentally retarded children, *3* 349; Training mathematics skills with games, *2* 216

Glass, Gene V., Victor L. Willson, *and* **John M. Gottman,** Design and analysis of time-series experiments. *Book reviewed by* Starrett L. Dalton, *4* 449-451

Gliessman, David, *and* **Richard C. Pugh,** The development and evaluation of protocol films of teacher behavior, *article*, *1* 21-48

Goodson, Carole Edith McKissock, A study of the effectiveness of computer assisted instruction as compared to traditional instruction when utilized in technical mathematics for college students in business and engineering technology, *research abstract*, *2* 221-222

Gordon, Ruby D., The effects of videorecording experience upon the communication behavior skill of empathy and dogmatism in sophomore community college nursing students, *research abstract*, *1* 111

Haney, John B., And furthermore, *3* 347; ed. Book reviews, vol. 24

Higginson, George M. *See* Fruchter, Dorothy A.

Hoban, Charles F., *book reviewer*, *2* 204-208

Holliday, William G., Teaching verbal chains using flow diagrams and texts, *article*, *1* 63-78

I

The importance of perceived task and type of presentation in student response to instructional television, *article*, Kenneth J. Ksobiech, *4* 391-402

The impact of alternative media channels: recall and involvement with messages, *article*, David L. Nasser *and* William J. McEwen, *3* 263-272

Individual and small-group learning with computer-assisted instruction, *article*, James R. Okey *and* Kenneth Majer, *1* 79-86

Individualized instruction

Articles: AV autotutorial instruction: a review of evaluative research, *3* 229-261; Individual and small-group learning with computer-assisted instruction, *1* 79-86

Research abstracts: A computer-based management information system for a humanistic undergraduate elementary teacher education program, *4* 461-462; A model for a computer based system for individually diagnosed and prescribed instruction, *4* 459; Use of an interactive general-purpose computer terminal to simulate training equipment operation, *4* 456

Innovation

Article: Multivariable implications of an instructional innovation, *4* 403-412

Research abstracts: NIE conference on studies in teaching; panel 8, personnel roles in new instructional systems, *3* 351

Instructional regulation and control: cybernetics, algorithmization, and heuristics in education, L. N. Landa. *Book reviewed by* Susan M. Markle, *3* 329-333

Instructional technology: on diversity in education, *article*, Lawrence P. Grayson, *2* 117-134

Intelligence

Article: The effect of IQ level on the instructional effectiveness of black-and-white and color illustrations, *1* 49-62

An investigation of the interaction between an associate degree nursing student's internal-external preference and the response to an overt or covert treatment to a programmed instruction task, Anne Loustau, *research abstract*, *2* 220-221

Instructional development

Articles: The development and evaluation of protocol films of teacher behavior, *1* 21-48; Learner verification and revision: an experimental comparison of two methods, *3* 316-328; Multivariable implications of an instructional innovation, *4* 403-412

Research abstracts: The development and evaluation of a programmed occupational information unit on construction occupations entitled opportunity in construction occupations, *2* 222-223; Functional literacy: a field study of instructor and instructional variables, *2* 220; Task analysis in instructional program development. Theoretical paper no. 52, *3* 351-352
